

Review of: "Persimmon Preservation: Navigating Tradition, Innovation, and Sustainability for a Holistic Future"

Nilüfer Aksu Uslu

Potential competing interests: No potential competing interests to declare.

[http://The article was written with an up-to-date bibliography. The topics covered are interesting. If the beginning of the summary section is written more impressively, it can increase the reader's interest. False: Diospyros kaki L., scientifically known as persimmon. Correct: Persimmon, scientifically known as Diospyros kaki L. The connection between the purpose and conclusion of the article is not sufficient. Purpose and conclusion should be rewritten.](#)
