Potential competing interests: No potential competing interests to declare.

1. In equation (14) should be  $\delta_k$ ?
2. Equation (28) and (29) should be numbered as (28) only, since it is a system of equations. Same case with equation (33)(34), (45)(46), (50)(51), (61)(62) and so on, should be labelled with single equation number.
