Succinate Dehydrogenase [Ubiquinone] Cytochrome B Small Subunit, Mitochondrial

National Cancer Institute

Source

National Cancer Institute. *Succinate Dehydrogenase [Ubiquinone] Cytochrome B Small Subunit, Mitochondrial*. NCI Thesaurus. Code C97781.

Succinate dehydrogenase [ubiquinone] cytochrome b small subunit, mitochondrial (159 aa, ~17 kDa) is encoded by the human SDHD gene. This protein plays a role in the regulation of the electron transport chain.
