Saint Bernard

National Cancer Institute

Source

National Cancer Institute. *Saint Bernard*. NCI Thesaurus. Code C53776.

The Saint Bernard is a very large, strong, muscular dog, with a powerful head. There are two types of coat: rough and smooth; but both are very dense and come in white with markings in tan, red, mahogany, brindle, and black - in various combinations. The face and ears are usually shaded with black. The feet are large with strong well-arched toes, making the Saint Bernard's sure-footed in the snow and ice. Height: 25.5-27.5 inches (61-70 cm.) Weight: 110-200 pounds (50-91 kg.)
