Potential competing interests: No potential competing interests to declare.

1.The novelty of the work must be clearly addressed and discussed, compare your research with existing research findings and highlight novelty, (compare your work with existing research findings and highlight novelty).

2.The paper tries to show its sources of originality but, in spite of some interesting discussions, it is not convincing in justifying the literature gap and the interest of the research problem.

3. The literature review needs to be better structured and organized using, for instance, headings. The authors should explain the rationale that supports their review and provide a better justification for their choices. Authors can use more related papers for expression literature review. Please provide one table in literature review and compare proposed approach with other works.

4.The contributions of the paper should be clearly stated?5.Some figures and formulas are used from other articles but not well referenced.
