

# Review of: "Encounters with Others: Student Growth through Fieldwork Studies in Rural Areas"

Jhon Jairo Mosquera Rodas<sup>1</sup>

<sup>1</sup> Universidad Cooperativa de Colombia

**Potential competing interests:** No potential competing interests to declare.

The research is very interesting and promising. With this in mind, I recommend the following:

Generate for future research a system that can integrate science from universities, articulating basic and secondary education and cooperatives within the field, thus ensuring articulated and stable productivity processes that benefit everyone.

Please include in the article the methodology you used to carry out the study and some statistics in the results section that will allow you to improve the quality of the study.

I am sending you two articles that can be useful both for the theme you are developing and for the generation of the integration system I am proposing to you.
