Carcinoma of the Eyelid Pathologic TNM Finding v7

National Cancer Institute

Source

National Cancer Institute. *Carcinoma of the Eyelid Pathologic TNM Finding v7*. NCI Thesaurus. Code C88558.

A pathologic finding about one or more characteristics of carcinoma of the eyelid, following the rules of the TNM AJCC v7 classification system. The surgical nature of the histopathology specimen should be noted including incisional biopsy, excisional biopsy, wide local excision, radical excision including exenteration. The specimen should be carefully oriented and inked for margin evaluation. (from AJCC 7th Ed.)
