Thank you for giving me the opportunity to review this manuscript.

dear editor / author

It is a valuable manuscript, but it needs the following revisions:

Please put order in the background of the manuscript. Some sentences, including the purpose of the study, have been repeated several times.

Determine the type of study

Sampling method should be clearly written. Please remove the extra description.

The method of determining sample size, measurement error and confidence level is not written.

The data collection tool, its validity and reliability and its scoring should be determined.
