Addiction Ontology

Source

[Addiction Ontology](#)

Definition: An object that is manufactured or processed for sale.

Curator note: Original definition says 'An object or substance' but substance would be an object aggregate in BFO so we have just used object

This definition was imported from the Addiction Ontology (see <https://addictovocab.org/>). Comments and suggestions for improvements are welcome using the Qeios comment system.

Definitions imported from the Addiction Ontology (AddictO) are what are known as 'ontological definitions'. See this article in Qeios for an explanation <https://www.qeios.com/read/YGIF9B>.

Ontological definitions can sometimes be hard to read. In those cases we also include an informal definition.

Definitions also often require elaboration to make it clear how they should be used and what they include. In those cases we include a comment.

Also, definitions sometimes require an explanation as to how they came about to help users understand how they relate to alternative definitions. In those cases we include a curator note.
