Potential competing interests: No potential competing interests to declare.

1. The author should use one or more authentic databases.
2. What is the gap in the literature, and what is the author's contribution to the existing literature?
3. The introduction part should be written in a structured way.
4. There are lots of graphs and calculations in the empirical analysis part without clearly mentioned models and variables.
5. The overall structure of this paper is poor.
