

# Review of: "Process for Implementing a Quality Management System (QMS) Adapted to Architectural Practices in Tunisia, in the Case of ISO 9001"

M Shilpa

Potential competing interests: No potential competing interests to declare.

The work is well articulated about the QMS and its benefits. The abstract needs elaboration. Available literature may be reviewed extensively in this area. The research component in the paper may be strengthened. The works of the previous publications require in-text citation. The discussion section of the paper needs to provide the novelty of the work and how it has been verified.
