

Review of: "Intelligent Transportation System Real-Time Tracking"

Ajay Dureja¹

¹ Bharati Vidyapeeth College of Engineering, Delhi

Potential competing interests: No potential competing interests to declare.

The related work is very sparse. Rather than cherry-picking a few examples of previous work it would be better to introduce the recent state-of-the-art work on this topic and give more interpretations regarding the research motivation of this work. The advantages of the proposed method should be highlighted comparing to other previous methods.
