Potential competing interests: No potential competing interests to declare.

This manuscript presents an overview of recent advancements in nanocarriers for protein and peptide drug delivery, contributing significant value to the field. To enhance the overall quality of the manuscript, several key revisions are suggested:

1. Please include the carrier materials for the drug delivery systems listed in Table 1.
2. Kindly elaborate on the drawbacks associated with protein and peptide drug delivery nanocarriers in detail.
3. The manuscript should discuss the biocompatibility of protein and peptide drug delivery nanocarriers.
4. Consider adding tables that detail protein and peptide drug delivery systems currently utilized in clinical applications.
5. To enhance visual appeal and comprehension, consider incorporating more attractive and detailed Figures.
6. Further improvement of the English language in the manuscript is recommended.
