Potential competing interests: No potential competing interests to declare.

In fact, it is written in a fluent and beautiful language.

However, not enough references were used to prevent it from being a compilation.

For example, although it is frequently mentioned that it is used in the cosmetics industry, no literature information is given regarding for what purpose and in what way it is used.

However, it could have been better if it had been written with reference to research articles in these fields of use.

Moreover, it would be appropriate to briefly mention its historical development.

I think the article is insufficient to be published in its current form.
