Congratulations for the excellent work. it becomes more and more necessary to discuss gender roles in our society.

Aiming to enrich your article, I present some suggestions.

In the first paragraph of section 1, I suggest adding the references of which theories were used for its theoretical construction.

The same happens when it is stated that "Athleticism, once strongly male gendered is now weakly gendered or ungendered". I believe it is important to explain the study that presents such a result.

In session 2, it is necessary to explain what BID is.

I believe it would be very important to clarify the roles expected by men and women in society.

I hope that my contributions will be appreciated by you. Again, I express my satisfaction in reading your article.

Sincerely.
