This manuscript is purely a review manuscript.

Overall, the authors have presented a good review on IT trends in tertiary institutions. But still some minor revisions are required to enhance the quality of the paper.

Abstract needs to be more concise and with clarity in statements.

Some content of abstract and introduction is repeated.

Authors have given broad idea on effects of AI, Blockchain technology, CC, IoT, augmented reality & virtual reality and social media in education sector.

Under Discussions and Findings authors have discussed elaborately and presented good use cases as findings for tertiary education.

It could be better if some statistics are provided for findings and conclusion and future scope can be in bullet points.
