**Potential competing interests:** No potential competing interests to declare.

Some of my revisions, notably key changes like the inclusion of 'clown intervention,' were overlooked. Significant research was not inserted; for example, [Krieger, Y., Pachevsky, M., Shoham, Y., Biederko, R., Novack, L., & Sarid, O. (2022). Relieving pain and distress symptoms in the outpatient burn clinic: The contribution of a medical clown. *Burns*, 48(3), 654-661.]. Consequently, the current score stands at 3. Once these corrections are made, the score will increase.
