

Review of: "Tourists' Activities and their Impacts on Chinhoyi Caves Heritage Site, Zimbabwe"

Ghislain Zangmo Tefogoum

Potential competing interests: No potential competing interests to declare.

The most recent literatures used in this manuscript is 2019. Some recent publications on caves could have been used in improving this manucrypt if the authors made a deep litterature review.

A section on the presentation of the study area must be provided.

The study area must be presented and described.

Authors must come out with the main values/contains of the caves.

A location map is need.

More field evidences will be useful to testify the threats on the cave heritage. The two photographs provided are insignificant.

References need an indepth revision. i started underlining the missing references in the text. There are still many. Moreover, there are some citations from the main body which are lacking in this section.
