

Review of: "EFL Teachers' beliefs and Challenges About ESP Teaching"

Ginés D. López-García¹

¹ Universidad de Almería

Potential competing interests: No potential competing interests to declare.

The study is up-to-date and interesting; there is sufficient literature on the subject. The methodology is appropriate, and the data are adequately explained and supported by the relevant literature. The method of the research was selected appropriately for the subject, and the measurement tool used (interview questions) is appropriate for the purpose.

I proposed some references that can improve it:
