Potential competing interests: No potential competing interests to declare.

The introduction should be briefly explained in the abstract

The knowledge gap should be carefully explained in the introduction section to strengthen the aim of the study

The plant maturity that was used in the study should be described. The detailed part of the stem should also be described.

The frequent application of oral juice and diazepam should be mentioned

The relative abundance value in Table 1 is very subjective. Please cite the reference used to classify the phytochemical contents as low, moderate, and high

XXX in Table 3 should be deleted

Please check the journal guidelines for references. References must be written according to the guideline.
