This article is very insightful and pertinent in light of the uniquely challenging and significant problems facing the U.S. at the present. time. Our economy, our democracy, and our way of life are threatened to the extreme and in the most insidious fashion. This paper provides a very broad and in-depth perspective that can help create a direction to redirect evolving heinous political, environmental, social and economic momentum. I think the study would have been enhanced by integration of the works by Dean Stansel and his various co-authors, Joshua Hall and hos various co-authors, James Gwartney and his various co-authors, and to those who have productively adopted their concepts and databases. This would bring greater depth to the piece. I would like to see these
