Potential competing interests: No potential competing interests to declare.

1. Introduction and Problem Statement

- Would you mind explaining why the citation of Dickhaut et al. (2020) is used in referring to the variable (Social Influence – SI) and its application in UTAUT, as this article is not related to this topic?
- Any reference for the statement “little evidence in the context of the PU and PEOU of cloud services in tertiary education, peculiarly in Malaysia”? How do you know it?

2) Literature Review and Conceptual Framework

- Explanation of the mediating hypothesis is confusing and not focused on the nature of this study.

3) Methodology

- Keržič, Tomaževič, Aristovnik, & Umek (2019): Is this the right article cited? It cannot be found on any search engine platform.
- How do you apply the “adopt and adapt” technique for:
 - o PEU measurement model (Kerzic et al. (2019) & Venkatesh et al. (2003)) and
 - o Social Influence - Cheung & Vogel (2013) & Chen & Chang (2013). Furthermore, Cheng & Vogel’s (2013) article is not related to SI. Any explanation?

4)References

- Double check your references and citations. Do not put articles which are not cited. And please list out all articles cited in the reference list.
- Please update your references.
