Potential competing interests: No potential competing interests to declare.

The author should please note the following:

1. The author should focus on the scientific value in the abstract and introduction.
2. The way the document is presented does not represent an article.
3. The results are unorganized and boring for the reader; please rewrite them.
3. The research problem in the article is not clear.
4. There is no review of the relevant literature.
5. The abstract should briefly state the purpose of the research, main findings, and main conclusions.
