Potential competing interests: No potential competing interests to declare.

The paper is well designed and contains a very important and relevant topic. The methodology applied in this study is appropriate and significant. The paper clearly identified the implications for further research, practice, and society. The research can be used in practice for incorporating one of the most important subjects, i.e., sustainability, and also for raising awareness amongst future generations. The implications are consistent with the findings and conclusions of the paper.

The paper has clearly expressed its case, measured against the technical language of the field and the expected knowledge of the journal's readership.
