# Botanical Extracts Rinse IZN-6N4

National Cancer Institute

## Source

National Cancer Institute. *Botanical Extracts Rinse IZN-6N4*. NCI Thesaurus. Code C97667.

An oral rinse containing 1% of botanical extracts with potential anti-inflammatory and antimucositis activity. Upon rinsing with botanical extracts rinse IZN-6N4 in the oral cavity, this agent may prevent inflammation of the mucosal membranes and may decrease chemotherapy- and/or radiation-induced oral mucositis.
