

Review of: "Maintaining cyberhygiene in the Internet of Things (IoT): An expert consensus study of requisite user behaviours"

Dr Jayakrishnan A R

Potential competing interests: No potential competing interests to declare.

Authors have written the paper legibly. Below are the review comments.

1. Introduction section lacks clarity on how the existing IoT systems cope up with the behaviour of the users.
2. Limitations of the IoT systems for having defensive security should be included.
3. Justification of using the mixed method is not mentioned.
