Potential competing interests: No potential competing interests to declare.

The author has produced a good scientific study exploring the importance and medicinal potential of *Rubus fraxinifolius* and has reviewed Ragimot arbutus. The aim of this study is interesting, but the manuscript is not well written.

Some remarks:

- 1- add key words after the abstract
2. Page 1, line 21. Please add "," after "application".
3. Page 1, line 22. Please change "The goal" to "The aim".
4. Page 1, line 23 "In summary": please, correct
5. Page 2, line 35 "highlighting its importance in food and medicine": please, correct
6. Page 2, line 42 "species of Rosaceae": please, correct
7. Page 2, line 43 "In the Malesia region, 46 species of *Rubus* have been discovered.": please, correct
8. Page 2, line 65 "to its beneficial health": please, correct
9. Please include IC<sub>50</sub> values for each antioxidant test
10. It would be helpful if you could add the number of compounds of each family identified in the Ragimot species, together with the identification techniques used.
