

# Review of: "Airbase Compatibility with Spatial Planning: A Case Study of Airbase Waterkloof (South Africa)"

Nikola Krunić

Potential competing interests: No potential competing interests to declare.

This paper elaborates position of the airbase and gives an general overview of legislative for noise reduction, aviation safety and planning. Although informative, this paper is lacking clear problem definition and purpose. This is especially visible in Synthesis and Conclusion. Relations between the airbase and suburban surroundings is obviously “stalemate” position, both are limited for future development. So, some kind of planning scenarios should be proposed...
