

# Review of: "Spatio-Temporal Analysis of Precipitation Patterns in Xinjiang Using TRMM Data and Spatial Interpolation Methods: A Comparative Study"

Ammar Kamel<sup>1</sup>

<sup>1</sup> University of Anbar

Potential competing interests: No potential competing interests to declare.

-The researchers did not take into account evaporation and wind directions, which can have an effect on changing rainfall patterns.

-The article needs to compare the measured data observed and the results obtained from the four methods to determine the accuracy of the results
