## Suggestions:

1. Kindly avoid the word "subject" in the content.
2. This cross-sectional study was conducted in the T2DM population, ages 20 yrs to ? Were pre-diabetic patients also included?
3. HbA1c <7% - provide the latest guidelines
4. Was the duration of diabetes mellitus considered?
5. AIP - was the normal distribution of the data checked? SD is more than the mean of AIP.
6. References to include the recent research articles.
