

Review of: "Real-World Efficacy of N95, Surgical, and Cloth Masks in Mitigating SARS-CoV-2 Respiratory Infections: A Comprehensive Comparative Study"

T. Gobikannan Gobikannan

Potential competing interests: No potential competing interests to declare.

A simple and systematic approach for understanding the statistical data about mask wearer numbers. This work is not providing any scientifically proven data about mask filtration efficiency except PCR test. It may required to add more parameters to understand clearly about the importance of different masks in the COVID like situations. The possible explanation to describe about the function of various types of mask can be included.
