Potential competing interests: The author(s) declared that no potential competing interests exist.

1. More detailed description of data source should be listed.
2. Is there any foundation to sum up all the ecological service value? how to deal with the trade-off and synergy among the various ecological functions?
3. The research gap should be pointed clearly, and the literature review should serve the research gap of the study.
4. The comparison between results of this study and other literature should be added.
5. Grammar mistakes in the second sentence of the abstract needs to be corrected.
