Hello,

The article is well-written, very detailed, and contains a lot of information about the selected Diptera (Asteiidae, Lauxaniidae, Mydidae, and Neriidae).

I agree that this article should be published in the Qeios journal.

Please, the author should remove some key words in the abstract and replace them with words related to the study carried out on Diptera and the four families studied (Asteiidae, Lauxaniidae, Mydidae, and Neriidae).

With my best regards,
