Review of: The Impact of TikTok on Students: A Literature Review

Inconsistent format of references

Some statement need citation. For example "It was the second most downloaded app in the app world in 2020". Please cite

The flow of the paper is quite confusing. It should start with general overview of social media then narrowed down to the tiktok. But this paper highlight on tiktok first then suddenly jump to social media and jump again to tiktok.

Some incomplete citation i.e According to C. Diol, the use of application TikTok has had a very little negative impact on teenagers and young adult students. Please put the year but rather it should follow the format of citation.

Please write the abbreviation in full i.e UGC, PGC and OGC

The last paragraph of introduction stating that "Overall, studying the impact of TikTok on students is crucial in order to understand the potential advantages and disadvantages of this popular platform" is misleading as the author conclude it without proper explanation on why studying the impact of TikTok on students is crucial. The author need to put the justification clearly on why studying the impact of Tik Tok is crucial rather than just to understand its advantages and disadvantages.

This review is too basic. It is good if the author can present the paper using systematic literature review.

Poor organization of the paper as the author just list down the advantages and disadvantages without proper argument and citation.
