Review of: "Augmented Reality (AR) Technology on Student Engagement: An Experimental Research Study"

Elham Mohammed Thabit A. Alsaadi [1]

1 Kerbala University

In general, the paper needs some improvements:

1. The abstract should state briefly the purpose of the research, the principal results, and major conclusions.

2. Explain the research's importance by going over any previous studies or literature on the integration of AR technology in education.

3. There are no previous studies in this research.

4. Please underscore the scientific value added to your paper in your abstract and introduction.

5. The results section is not arranged so it needs to be rewritten.

6. Check grammar.

7. There is some formatting error.

8. The paper is not so well-structured.

9. Most of the references in the paper are outdated and need to be updated, and it is necessary to increase the number of references.
