Authors presented a Review of: The Nexus between Energy Policies and Supply: A Descriptive Evaluation of Nigeria and UK Energy Sectors; Although it is a good theme to discuss; Still, in its current form it is far away from a good description.

1. Incorporate a robust tabular comparison on the key factors of the proposed analysis with other state-of-the-art studies/analysis's (on relevant parameters of current interest) recently published in high-impact journals (not older than 2017) in the domain.
2. Based on the tabular comparison, please mention (point-wise in bullets) the previous drawback/research gaps that motivated you to pursue this study.
3. Then Highlight your contribution (Point-wise) to addressing the research gap.
4. Kindly add the complete organizational details of your work at the end of the introduction section. How the manuscript has been organized?
5. Methodology part is highly poor and interactive. Kindly elaborate on it, Instead authors can incorporate a flowchart on Descriptive Evaluation Process applied in their work/Evaluation process.
6. Result and Discussion part is also miles behind from being a good/interactive discussion. Please make the result section more diverse incorporating the suitable graphics supported by a comprehensive numerical analysis to prove the novelty and theoretical claim of the proposed work.
