Potential competing interests: No potential competing interests to declare.

Title: Please delete the word "word," "comprehensive," or "overview" from the title.

Abstract: Please obey the standard abstract structure: background, aim, methods, results, and conclusion. Moreover, the abstract should be devoid of undefined acronyms.

Please check the manuscript for minor grammar errors, syntax, and sentence structure.

Please check the use of acronyms; they should be completely written out as first mentioned, with acronyms not required for single or minimal use of words.

Please add information about pitavastatin as an anticancer, antiviral, anti-inflammatory, and senolytic agent.

Please add a hint about the role of pitavastatin in apoptosis and ferroptosis.

Please update the references list and add the 2023 and 2024 years.

Please check the plagiarism.
