Review of: "The stability of quetiapine oral suspension compounded from commercially available tablets"

HAZAL EZGİ GÜLTEKİN

Potential competing interests: The author(s) declared that no potential competing interests exist.

The authors carried out a comprehensive study for the development and stability evaluation of quetiapine fumarate oral suspensions. . I think this study and obtained results would be a guide for the new studies. However, there are commercially available oral suspensions of quetiapine fumarate. In this respect, the study cannot be thought to be entirely innovative.
