The topic is very interesting, and after reading the full paper, I recommend some minor corrections and suggestions. After these corrections, this paper will be processed for further publication.

1. Improve the quality of English writing.

2. Improve the explanation of each part of the analysis.

3. Use the latest techniques of analysis.

4. Mention the data sources with complete references/evidence.

5. Use suitable words and avoid words like "we".

6. Mention the contribution and uniqueness of this research.

7. Only 97 references are there in the manuscript. Also, in the manuscript, 217 citations are not there.

8. The manuscript must be redesigned to increase its utility for the readers.
