Review of: "The Metaverse in Tourism and the Airline Industry"

Ihsan Rabbi

In this paper, the authors discussed the use of Metaverse in the Airline and Tourism Industries. The research work presented in this study is poor and required the following changes to be incorporated:

a. Abstract is very poor and lack the required information. The information presented in current abstract is not useful and one cannot understand the theme of the research conducted in this research work. Required complete revision of abstract.

b. Which problem is addressed in this research study? Problem statement and research objectives are missing in Introduction section. Define the problem statement inside this section along with the objectives of this research work.

c. Critical review of the discussed techniques is missing. Limitations of the existing studies are also missing. Where is the research gap?

d. The title of the paper consists tourism first then airline while inside the research paper the metaverse role in airline is discussed first. Be consistent.

e. There is also lack of features analysis to show the good or bad effect of metaverse in these two industries.
