I read the article "Ancient Houses in Ben Tre City: A Multifaceted Approach to Preserve Artistic Architectural Heritage and Boost Local Tourism" and thought it was very good.

The theme is current, the text is well written, clear, objective.

The Ben Tre case study is rich in demonstrating the importance of safeguarding the city's cultural, artistic, and architectural heritage.

It is interesting to highlight that the article starts from sustainable construction practices, which guarantees the longevity of historic structures, culminating in a discussion on the valorization of local/global heritage and tourism.

Finally, I highlight that the bibliography is adequate.
