

Review of: "Factors Influencing the Laptop Buying Behavior of Students in Vietnam"

Mansaf M Elmansori

Potential competing interests: No potential competing interests to declare.

1- what do these results imply the government and policymakers? (Should be added to abstract)

2- please provide some references in introduction section.

3- add framework model figure (contains iv and dv)

4- how did you determine the sample size? Should be explained

5- add a table shows the result of hypothesises (accepted/ not accepted)

Best wishes
