Review of: "NER Sequence Embedding of Unified Medical Corpora to Incorporate Semantic Intelligence in Big Data Healthcare Diagnostics"

Wenzheng Bao[1]

1 Xuzhou University of Technology

Authors put effort into collecting endocrine diagnostic electronic health records (EHR) corpora for clinical purposes that are labeled with ICD-10-CM international coding scheme. International Codes for Diseases (ICD) by the World Health Organization (WHO) is a known schema to represent medical codes for diagnoses. This work is meaningful.

1 Authors should rewrite the section of abstract. The abstract is so long.

2 Authors should give a detailed description of figure 1.

3 Figure 2 is confused. Authors should update it.

4 It was suggested that some tables can be shown in the supplementary material.
