Epidermal Growth Factor Receptor Tyrosine Kinase Inhibitor

National Cancer Institute

Source

National Cancer Institute. *Epidermal Growth Factor Receptor Tyrosine Kinase Inhibitor*.
NCI Thesaurus. Code C2167.

Any tyrosine kinase inhibitor that targets the activity of the epidermal growth factor receptor (EGFR) tyrosine kinase. Inhibition of epidermal growth factor receptor tyrosine kinase may inhibit the growth of epidermal-lineage tumor cells, especially those that overexpress epidermal growth factor receptor.
