Non-immune hydrops fetalis

INSERM

Source

INSERM. (1999). Orphanet: an online rare disease and orphan drug data base. Non-immune hydrops fetalis. ORPHA:363999

Non-immune hydrops fetalis (NIHF), a form of HF, is a severe fetal condition defined as the excessive accumulation of fetal fluid within the fetal extravascular compartments and body cavities, and is the end-stage of a wide variety of disorders.
