

Review of: "Examining the Ethical and Geopolitical Context of Global Food Security Policy"

Ali KianiRad

Potential competing interests: No potential competing interests to declare.

I want to express my deep gratitude to the contributors of this project for their excellent work. While conflicts such as ethical and geopolitical issues significantly affect global food security, we must also consider the other two elements of the 3C's framework: Climate Change and the impact of COVID-19 and other Pandemics. I believe that conflicts represent the third major factor contributing to global food insecurity, following climate change and the effects of COVID-19 and other pandemics.
