Potential competing interests: No potential competing interests to declare.

The article need minor modifications.

The research objectives should be in full sentence and it is best to include also the research hyptheses.

I think the research objectives not relevant to assess the impacts. Kindly look again your overall research objectives.

To establish the various tourist activities at heritage sites;

1. To assess the impacts of tourist activities on heritage sites;
2. To suggest strategies that may be adopted to minimise the negative impacts of tourist activities at heritage sites.
