Review of: "Role of ChatGPT in the Film Industry: According to ChatGPT"

Qinjun Qiu[1]

1 China University of Geosciences Wuhan

1: How can ChatGPT provide some test cases in all aspects of film and television production as the basis for supporting the analysis of advantages and disadvantages. For example, for prejudice and other issues, can you give examples

2: Can there be more reference documents to cover more relevant information.

3: When creating with ChatGPT, can you put forward some suggestions to avoid or improve the shortcomings mentioned in the article, such as lack of creativity, and how to help yourself discover creativity through ChatGPT.
