

Review of: "The Nexus between Energy Policies and Supply: A Descriptive Evaluation of Nigeria and UK Energy Sectors"

Ahmed Ait Errouhi

Potential competing interests: No potential competing interests to declare.

I would like to congratulate the authors for their efforts in producing this paper on The Nexus between Energy Policies and Supply: A Descriptive Evaluation of Nigeria and UK Energy Sectors. A paper with a large amount of facts and information incorporated. The text provides a concise and argued state of knowledge and existing theories related to the topic. The references to the literature are relevant and recent. The English expression is accurate and adequate. The conclusion deserves to be better developed and enlightened. Good luck !
