Dear Chief-Editor

Thank you very much for giving me the opportunity to read and review this manuscript. The paper is a worthy contribution to assess and compare PhD supervisors' capability, opportunity, and motivation by behavior change theory among PhD students. This article has sufficient writing and scientific structure in presenting the content, and I enjoyed reading this study and congratulate its authors for this scientific achievement. In such a situation, I think this article has the necessary standards and acceptable level to be published in the Journal of *Qeios*.

Sincerely,

Sajjad Rostamzadeh
